Start date of project: 01/09/2017      Duration: 25 months

**PUBLISHABLE SUMMARY**

RUN2Rail will use and produce digital data. This document describes how the existing data and the new data generated from the project will be handled. The Data Management Plan (DMP) is a living document that describes the type of data that will be collected, processed, stored and disseminated. Each Work Package (WP) describes the type of data that will be used and generated and how these data will be shared and preserved. This document also describes how the general data from the project will be shared and archived.
